

2022 Point-in-Time Data

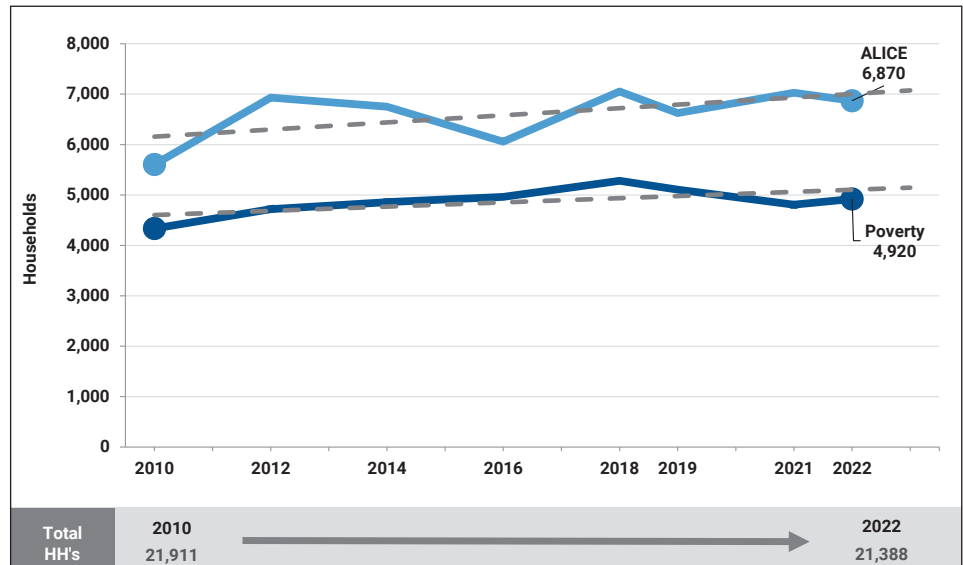

Population: 57,674 • **Number of Households:** 21,388
Median Household Income: \$44,977 (state average: \$55,416)
Labor Force Participation Rate: 55.7% (state average: 59.4%)
ALICE Households: 32% (state average: 32%) • **Households in Poverty:** 23% (state average: 19%)

Financial Hardship Over Time

ALICE is an acronym for **A**sset **L**imited, **I**ncome **C**onstrained, **E**mloyed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the parish (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

Households move below or above the ALICE Threshold as economic factors and circumstances change. This was especially true amid the economic crosscurrents of the COVID-19 pandemic, with higher wages, inflation, and additional pandemic assistance. By 2022, 11,790 households (55%) were below the ALICE Threshold in Acadia Parish.

The Cost of Basics Outpaces Wages

The Household Survival Budget reflects the minimum cost to live and work in the current economy and includes housing, child care, food, transportation, health care, technology, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the parish level and by household composition, as costs can vary greatly depending on location and household needs.

In 2022, household costs in Acadia Parish were well above the Federal Poverty Level of \$13,590 for a single adult and \$27,750 for a family of four.

To see costs for different household compositions in Acadia Parish, visit UnitedForALICE.org/Household-Budgets/Louisiana

Financial Hardship is Not Evenly Distributed

Groups with the largest number of households below the ALICE Threshold tend to also be the largest demographic groups. However, when looking at the percentage of each group that is below the ALICE Threshold, some groups are more likely to be ALICE than others.

By addressing the disparities in financial hardship by parish demographics, community members can move toward more equitable solutions.

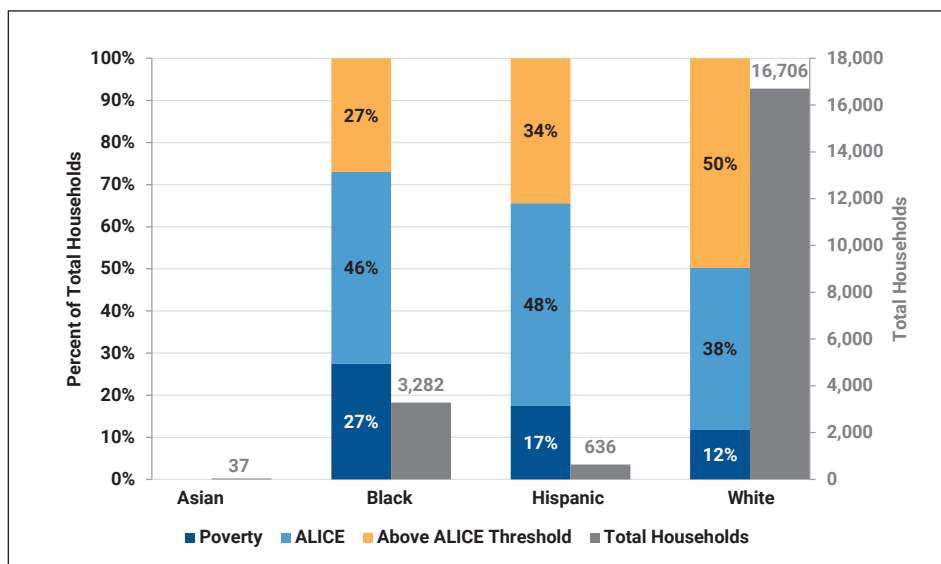

Visit UnitedForALICE.org/Louisiana to view more national, state, and parish data.

Financial Hardship is Not Evenly Distributed

Groups with the largest number of households below the ALICE Threshold tend to also be the largest demographic groups. However, when looking at the percentage of each group that is below the ALICE Threshold, some groups are more likely to be ALICE than others.

By addressing the disparities in financial hardship by parish demographics, community members can move toward more equitable solutions.

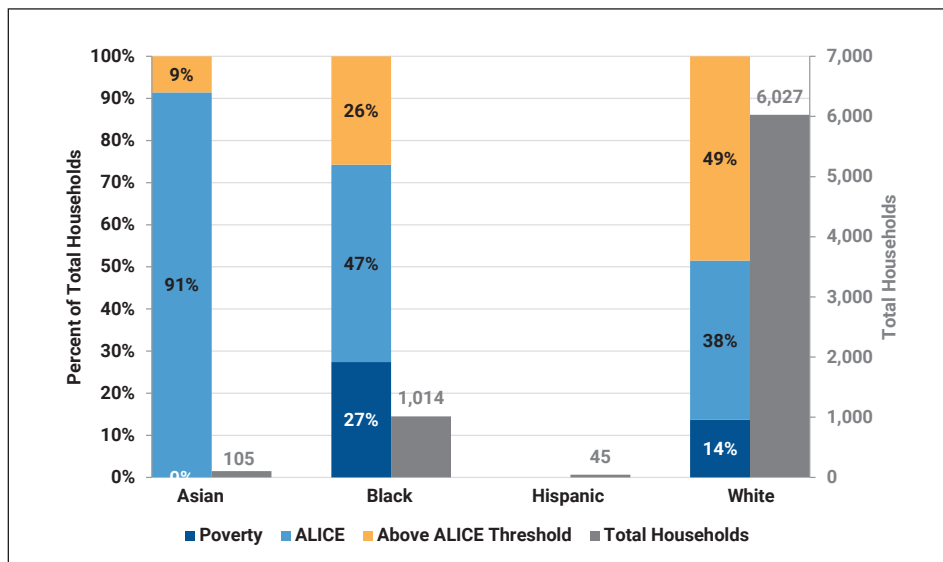

Visit UnitedForALICE.org/Louisiana to view more national, state, and parish data.

Household Financial Status by Household Type, Bienville Parish, 2022

Sources: ALICE Threshold, 2022; American Community Survey, 2022

Household Financial Status by Race/Ethnicity, Bienville Parish, 2022

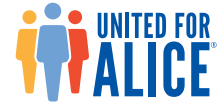

Note: Asian, Black, and White racial categories are for one race alone. Race and Hispanic ethnicity are overlapping categories. The Asian and Black groups may include Hispanic households; the White group includes only White, non-Hispanic households. The Hispanic ethnic group may include households of any race.

Bienville Parish, 2022		
	Total Households	% ALICE & Poverty
Arcadia	1,290	69%
Castor	139	91%
Gibsland	298	84%
Ringgold	592	81%

Note: Municipal-level data on this page is 1 or 5-year averages for Incorporated Places (1-year for populations over 65,000 and 5-year for populations under 65,000). Geographies with fewer than 100 households are not included. Therefore, totals will not match the parish-level numbers.

ALICE IN BOSSIER PARISH

2022 Point-in-Time Data

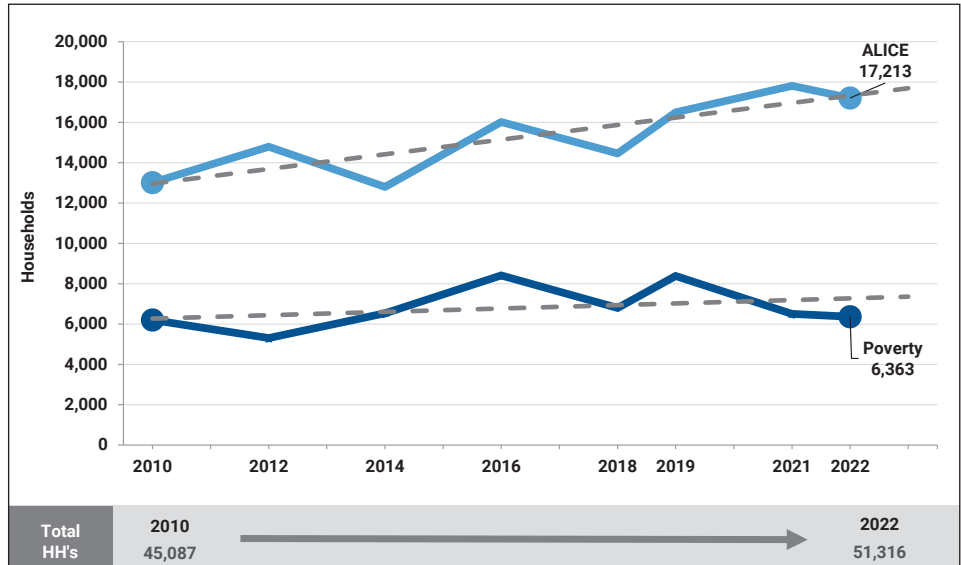

Population: 129,276 • **Number of Households:** 51,316
Median Household Income: \$62,421 (state average: \$55,416)
Labor Force Participation Rate: 62.9% (state average: 59.4%)
ALICE Households: 34% (state average: 32%) • **Households in Poverty:** 12% (state average: 19%)

Financial Hardship Over Time

ALICE is an acronym for **A**sset **L**imited, **I**ncome **C**onstrained, **E**mloyed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the parish (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

Households move below or above the ALICE Threshold as economic factors and circumstances change. This was especially true amid the economic crosscurrents of the COVID-19 pandemic, with higher wages, inflation, and additional pandemic assistance. By 2022, 23,576 households (46%) were below the ALICE Threshold in Bossier Parish.

Households by Income, Bossier Parish, 2010–2022

The Cost of Basics Outpaces Wages

The Household Survival Budget reflects the minimum cost to live and work in the current economy and includes housing, child care, food, transportation, health care, technology, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the parish level and by household composition, as costs can vary greatly depending on location and household needs.

In 2022, household costs in Bossier Parish were well above the Federal Poverty Level of \$13,590 for a single adult and \$27,750 for a family of four.

To see costs for different household compositions in Bossier Parish, visit UnitedForALICE.org/Household-Budgets/Louisiana

The Household Survival Budget reflects the minimum cost to live and work in the current economy and includes housing, child care, food, transportation, health care, technology, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the parish level and by household composition, as costs can vary greatly depending on location and household needs.

In 2022, household costs in Claiborne Parish were well above the Federal Poverty Level of \$13,590 for a single adult and \$27,750 for a family of four.

To see costs for different household compositions in Claiborne Parish, visit UnitedForALICE.org/Household-Budgets/Louisiana

Financial Hardship is Not Evenly Distributed

Groups with the largest number of households below the ALICE Threshold tend to also be the largest demographic groups. However, when looking at the percentage of each group that is below the ALICE Threshold, some groups are more likely to be ALICE than others.

By addressing the disparities in financial hardship by parish demographics, community members can move toward more equitable solutions.

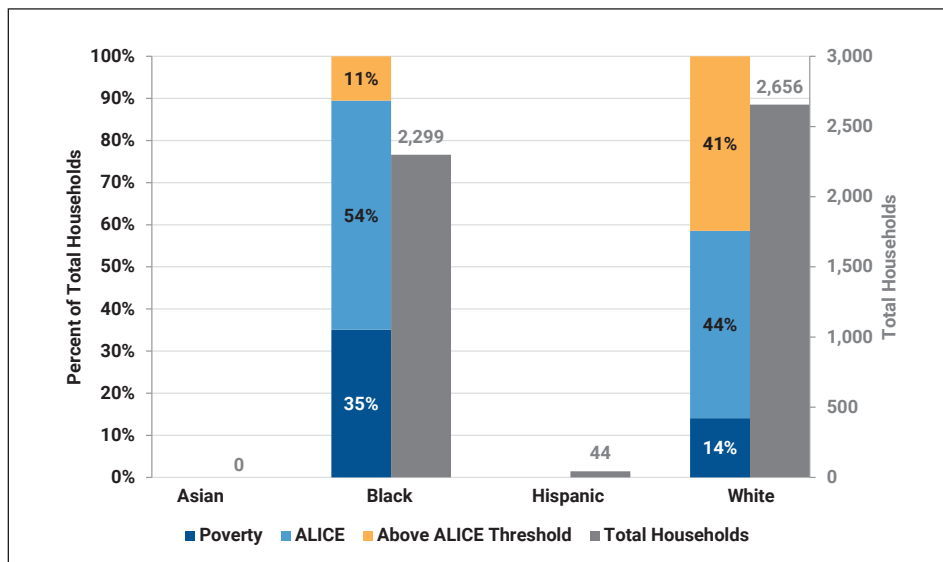

Visit UnitedForALICE.org/Louisiana to view more national, state, and parish data.

Household Financial Status by Household Type, Claiborne Parish, 2022

	Total Households	% ALICE & Poverty
Athens	134	81%
Haynesville	892	79%
Homer	973	77%

Note: Municipal-level data on this page is 1 or 5-year averages for Incorporated Places (1-year for populations over 65,000 and 5-year for populations under 65,000). Geographies with fewer than 100 households are not included. Therefore, totals will not match the parish-level numbers.

ALICE IN CONCORDIA PARISH

2022 Point-in-Time Data

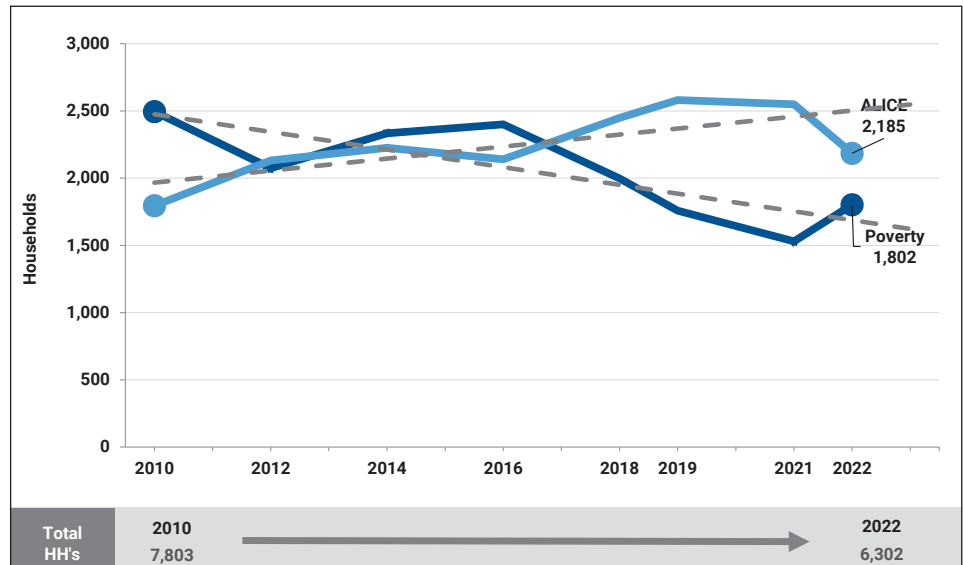

Population: 18,677 • **Number of Households:** 6,302
Median Household Income: \$38,929 (state average: \$55,416)
Labor Force Participation Rate: 41.7% (state average: 59.4%)
ALICE Households: 35% (state average: 32%) • **Households in Poverty:** 29% (state average: 19%)

Financial Hardship Over Time

ALICE is an acronym for **A**sset **L**imited, **I**ncome **C**onstrained, **E**mloyed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the parish (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

Households move below or above the ALICE Threshold as economic factors and circumstances change. This was especially true amid the economic crosscurrents of the COVID-19 pandemic, with higher wages, inflation, and additional pandemic assistance. By 2022, 3,987 households (63%) were below the ALICE Threshold in Concordia Parish.

2022 Point-in-Time Data

Population: 19,752 • **Number of Households:** 7,308
Median Household Income: \$41,129 (state average: \$55,416)
Labor Force Participation Rate: 48.1% (state average: 59.4%)
ALICE Households: 35% (state average: 32%) • **Households in Poverty:** 24% (state average: 19%)

Financial Hardship Over Time

ALICE is an acronym for **A**sset **L**imited, **I**ncome **C**onstrained, **E**mloyed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the parish (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

Households move below or above the ALICE Threshold as economic factors and circumstances change. This was especially true amid the economic crosscurrents of the COVID-19 pandemic, with higher wages, inflation, and additional pandemic assistance. By 2022, 4,353 households (60%) were below the ALICE Threshold in Franklin Parish.

The Cost of Basics Outpaces Wages

The Household Survival Budget reflects the minimum cost to live and work in the current economy and includes housing, child care, food, transportation, health care, technology, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the parish level and by household composition, as costs can vary greatly depending on location and household needs.

In 2022, household costs in Franklin Parish were well above the Federal Poverty Level of \$13,590 for a single adult and \$27,750 for a family of four.

To see costs for different household compositions in Franklin Parish, visit UnitedForALICE.org/Household-Budgets/Louisiana

Financial Hardship is Not Evenly Distributed

Groups with the largest number of households below the ALICE Threshold tend to also be the largest demographic groups. However, when looking at the percentage of each group that is below the ALICE Threshold, some groups are more likely to be ALICE than others.

By addressing the disparities in financial hardship by parish demographics, community members can move toward more equitable solutions.

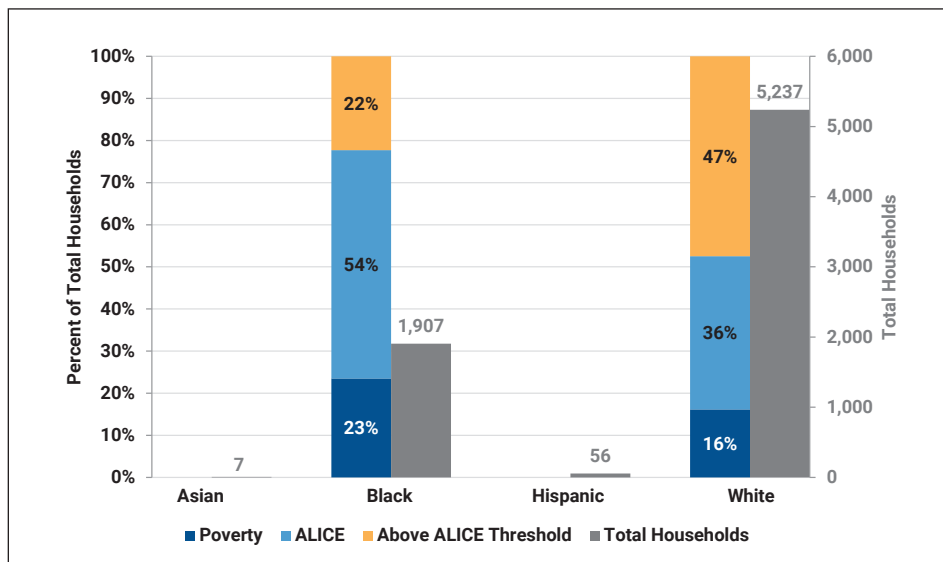

Visit UnitedForALICE.org/Louisiana to view more national, state, and parish data.

Financial Hardship is Not Evenly Distributed

Groups with the largest number of households below the ALICE Threshold tend to also be the largest demographic groups. However, when looking at the percentage of each group that is below the ALICE Threshold, some groups are more likely to be ALICE than others.

By addressing the disparities in financial hardship by parish demographics, community members can move toward more equitable solutions.

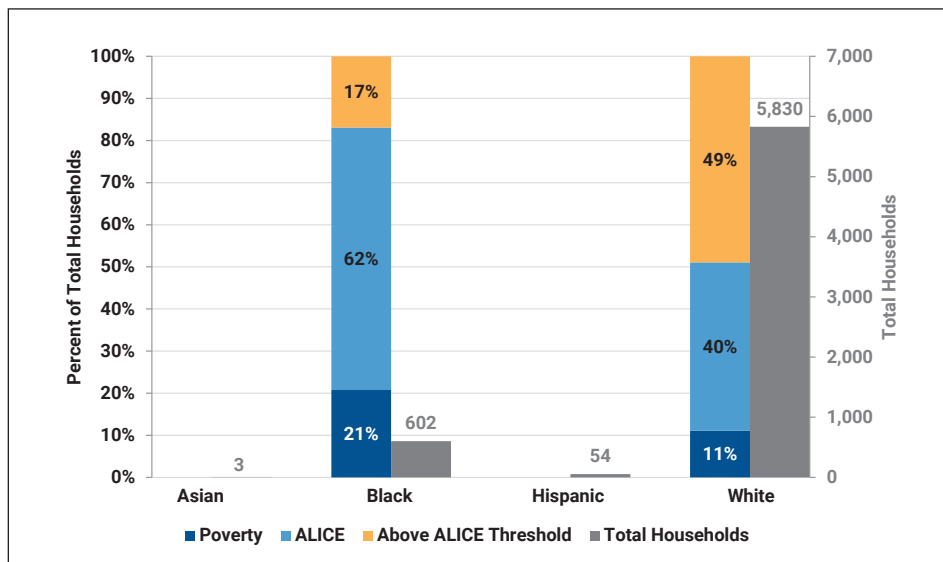

Visit UnitedForALICE.org/Louisiana to view more national, state, and parish data.

Household Financial Status by Household Type, Jefferson Davis Parish, 2022

Sources: ALICE Threshold, 2022; American Community Survey, 2022

Household Financial Status by Race/Ethnicity, Jefferson Davis Parish, 2022

Note: Asian, Black, and White racial categories are for one race alone. Race and Hispanic ethnicity are overlapping categories. The Asian and Black groups may include Hispanic households; the White group includes only White, non-Hispanic households. The Hispanic ethnic group may include households of any race.

ALICE IN LAFAYETTE PARISH

2022 Point-in-Time Data

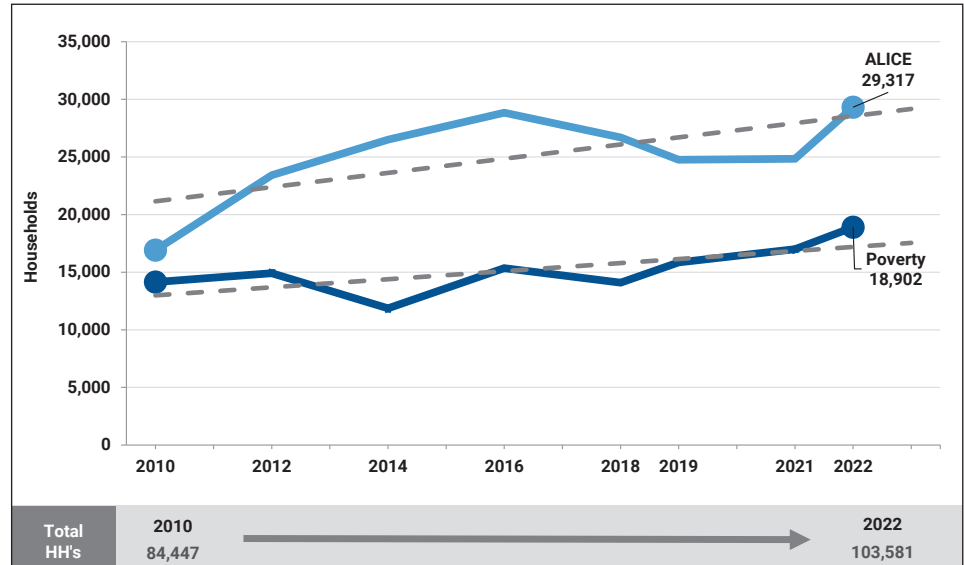

Population: 247,866 • **Number of Households:** 103,581
Median Household Income: \$56,496 (state average: \$55,416)
Labor Force Participation Rate: 64.1% (state average: 59.4%)
ALICE Households: 28% (state average: 32%) • **Households in Poverty:** 18% (state average: 19%)

Financial Hardship Over Time

ALICE is an acronym for **A**sset **L**imited, **I**ncome **C**onstrained, **E**mloyed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the parish (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

Households move below or above the ALICE Threshold as economic factors and circumstances change. This was especially true amid the economic crosscurrents of the COVID-19 pandemic, with higher wages, inflation, and additional pandemic assistance. By 2022, 48,219 households (47%) were below the ALICE Threshold in Lafayette Parish.

The Cost of Basics Outpaces Wages

The Household Survival Budget reflects the minimum cost to live and work in the current economy and includes housing, child care, food, transportation, health care, technology, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the parish level and by household composition, as costs can vary greatly depending on location and household needs.

In 2022, household costs in Lafayette Parish were well above the Federal Poverty Level of \$13,590 for a single adult and \$27,750 for a family of four.

ALICE Households: 34% (state average: 32%) • **Households in Poverty:** 28% (state average: 19%)

Financial Hardship Over Time

ALICE is an acronym for **A**sset **L**imited, **I**ncome **C**onstrained, **E**mloyed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the parish (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

Households move below or above the ALICE Threshold as economic factors and circumstances change. This was especially true amid the economic crosscurrents of the COVID-19 pandemic, with higher wages, inflation, and additional pandemic assistance. By 2022, 5,838 households (62%) were below the ALICE Threshold in Morehouse Parish.

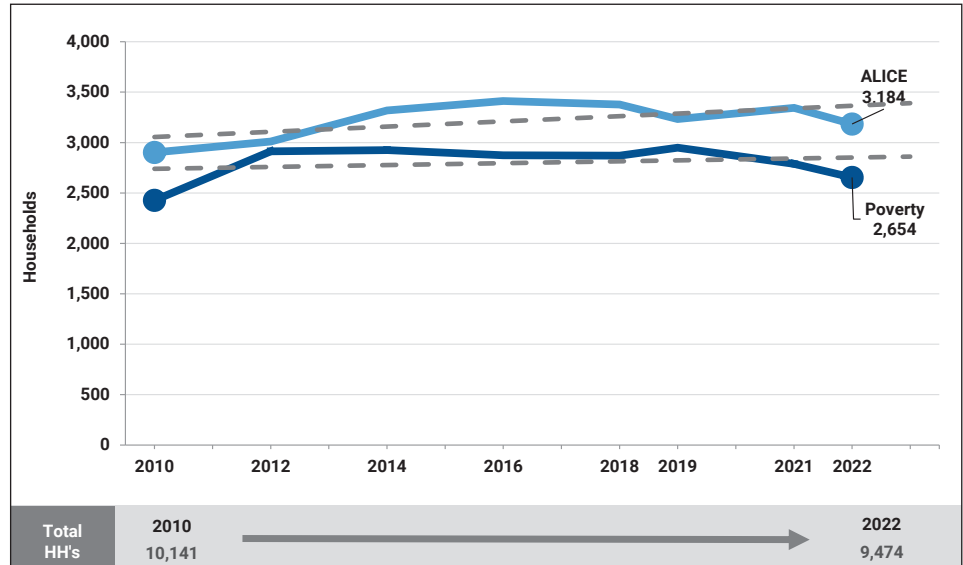

The Cost of Basics Outpaces Wages

The Household Survival Budget reflects the minimum cost to live and work in the current economy and includes housing, child care, food, transportation, health care, technology, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the parish level and by household composition, as costs can vary greatly depending on location and household needs.

In 2022, household costs in Morehouse Parish were well above the Federal Poverty Level of \$13,590 for a single adult and \$27,750 for a family of four.

To see costs for different household compositions in Morehouse Parish, visit UnitedForALICE.org/Household-Budgets/Louisiana

Financial Hardship is Not Evenly Distributed

Groups with the largest number of households below the ALICE Threshold tend to also be the largest demographic groups. However, when looking at the percentage of each group that is below the ALICE Threshold, some groups are more likely to be ALICE than others.

By addressing the disparities in financial hardship by parish demographics, community members can move toward more equitable solutions.

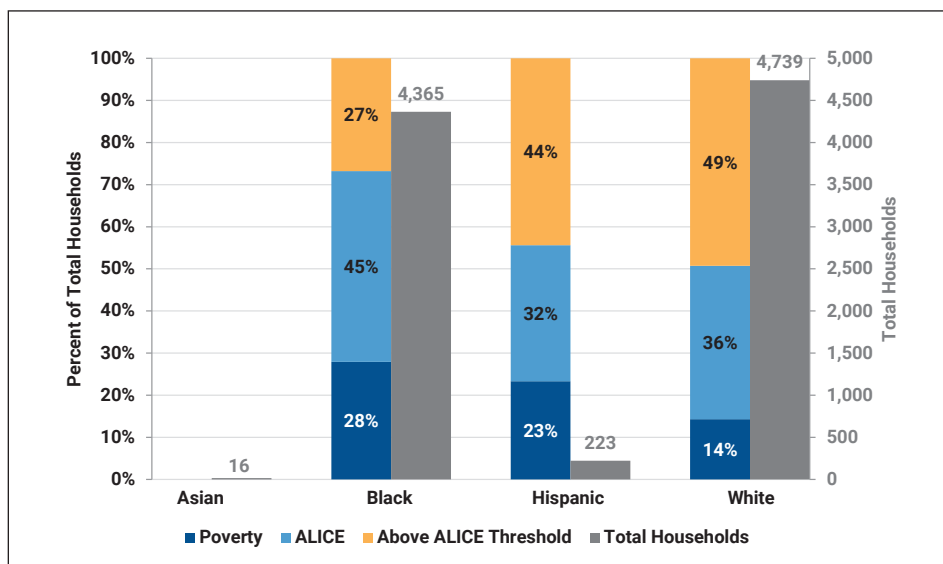

Visit UnitedForALICE.org/Louisiana to view more national, state, and parish data.

ALICE IN RED RIVER PARISH

2022 Point-in-Time Data

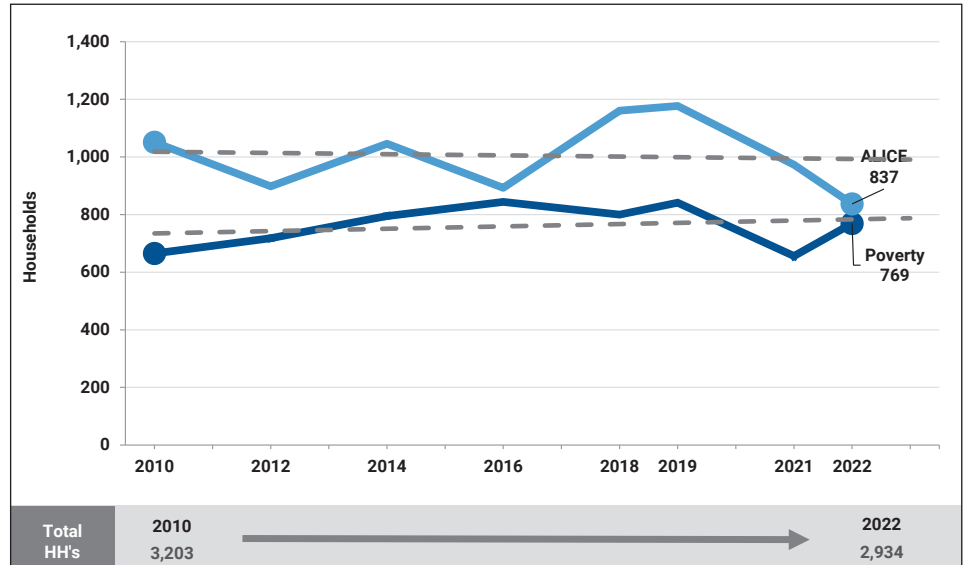

Population: 7,631 • **Number of Households:** 2,934
Median Household Income: \$43,821 (state average: \$55,416)
Labor Force Participation Rate: 49.4% (state average: 59.4%)
ALICE Households: 29% (state average: 32%) • **Households in Poverty:** 26% (state average: 19%)

Financial Hardship Over Time

ALICE is an acronym for **A**sset Limited, **I**ncome **C**onstrained, **E**mloyed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the parish (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

Households move below or above the ALICE Threshold as economic factors and circumstances change. This was especially true amid the economic crosscurrents of the COVID-19 pandemic, with higher wages, inflation, and additional pandemic assistance. By 2022, 1,606 households (55%) were below the ALICE Threshold in Red River Parish.

Households by Income, Red River Parish, 2010–2022

The Cost of Basics Outpaces Wages

The Household Survival Budget reflects the minimum cost to live and work in the current economy and includes housing, child care, food, transportation, health care, technology, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the parish level and by household composition, as costs can vary greatly depending on location and household needs.

In 2022, household costs in Red River Parish were well above the Federal Poverty Level of \$13,590 for a single adult and \$27,750 for a family of four.

To see costs for different household compositions in Red River Parish, visit UnitedForALICE.org/Household-Budgets/Louisiana

The Household Survival Budget reflects the minimum cost to live and work in the current economy and includes housing, child care, food, transportation, health care, technology, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the parish level and by household composition, as costs can vary greatly depending on location and household needs.

In 2022, household costs in St. James Parish were well above the Federal Poverty Level of \$13,590 for a single adult and \$27,750 for a family of four.

To see costs for different household compositions in St. James Parish, visit UnitedForALICE.org/Household-Budgets/Louisiana

Financial Hardship is Not Evenly Distributed

Groups with the largest number of households below the ALICE Threshold tend to also be the largest demographic groups. However, when looking at the percentage of each group that is below the ALICE Threshold, some groups are more likely to be ALICE than others.

By addressing the disparities in financial hardship by parish demographics, community members can move toward more equitable solutions.

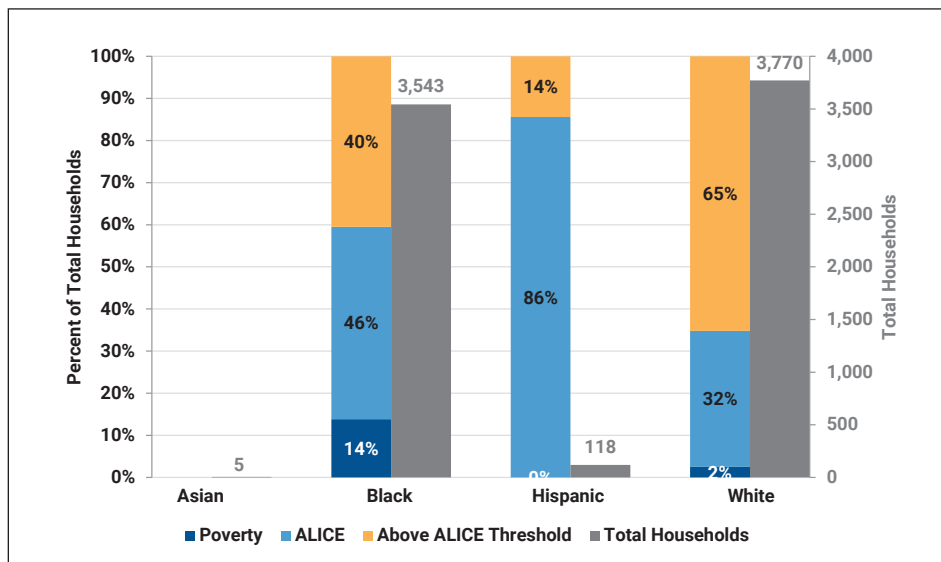

Visit UnitedForALICE.org/Louisiana to view more national, state, and parish data.

Household Financial Status by Household Type, St. James Parish, 2022

ALICE IN ST. JOHN THE BAPTIST PARISH

2022 Point-in-Time Data

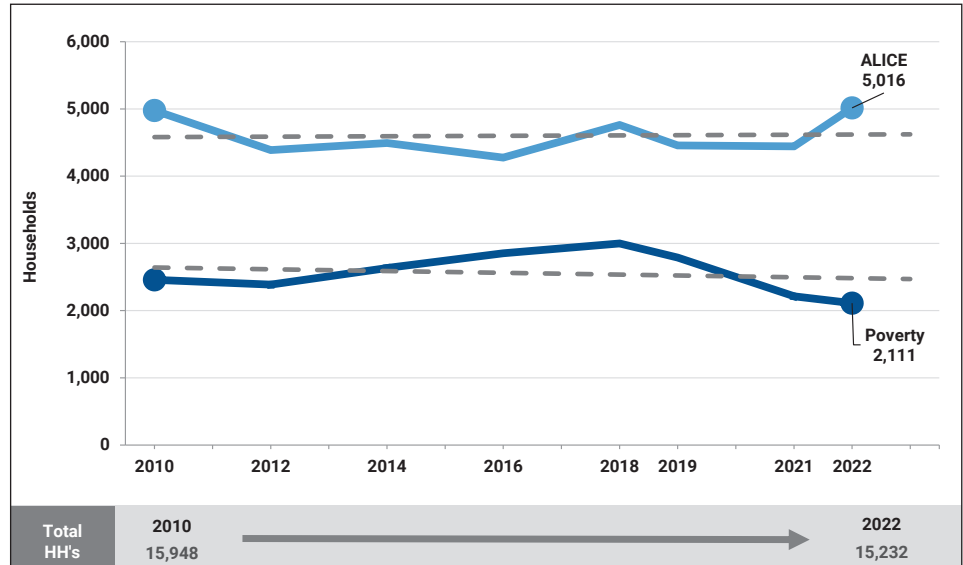

Population: 41,986 • **Number of Households:** 15,232
Median Household Income: \$65,114 (state average: \$55,416)
Labor Force Participation Rate: 60.1% (state average: 59.4%)
ALICE Households: 33% (state average: 32%) • **Households in Poverty:** 14% (state average: 19%)

Financial Hardship Over Time

ALICE is an acronym for **A**sset **L**imited, **I**ncome **C**onstrained, **E**mloyed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the parish (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

Households move below or above the ALICE Threshold as economic factors and circumstances change. This was especially true amid the economic crosscurrents of the COVID-19 pandemic, with higher wages, inflation, and additional pandemic assistance. By 2022, 7,127 households (47%) were below the ALICE Threshold in St. John the Baptist Parish.

Financial Hardship is Not Evenly Distributed

Groups with the largest number of households below the ALICE Threshold tend to also be the largest demographic groups. However, when looking at the percentage of each group that is below the ALICE Threshold, some groups are more likely to be ALICE than others.

By addressing the disparities in financial hardship by parish demographics, community members can move toward more equitable solutions.

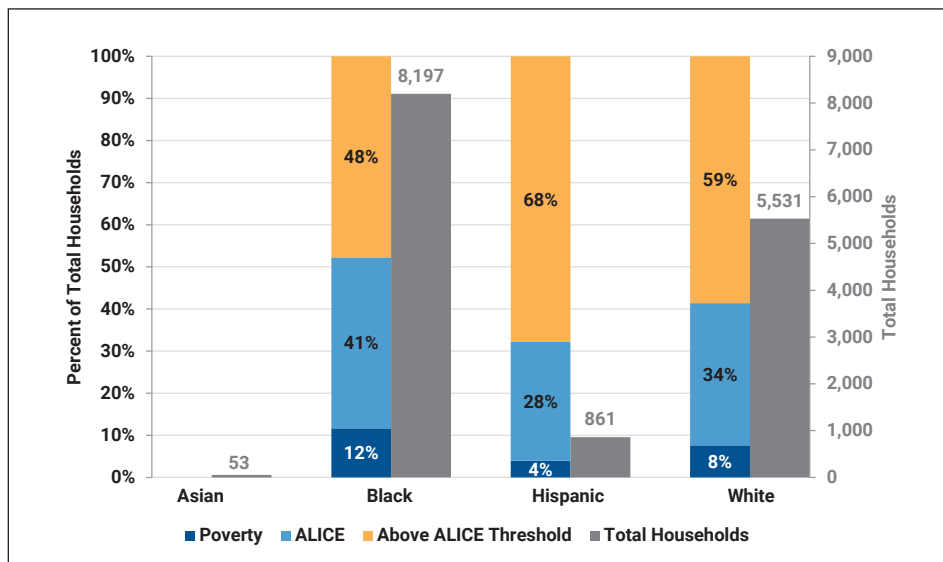

Visit UnitedForALICE.org/Louisiana to view more national, state, and parish data.

Household Financial Status by Household Type, Tangipahoa Parish, 2022

Sources: ALICE Threshold, 2022; American Community Survey, 2022

Household Financial Status by Race/Ethnicity, Tangipahoa Parish, 2022

Note: Asian, Black, and White racial categories are for one race alone. Race and Hispanic ethnicity are overlapping categories. The Asian and Black groups may include Hispanic households; the White group includes only White, non-Hispanic households. The Hispanic ethnic group may include households of any race.

ALICE IN TENSAS PARISH

2022 Point-in-Time Data

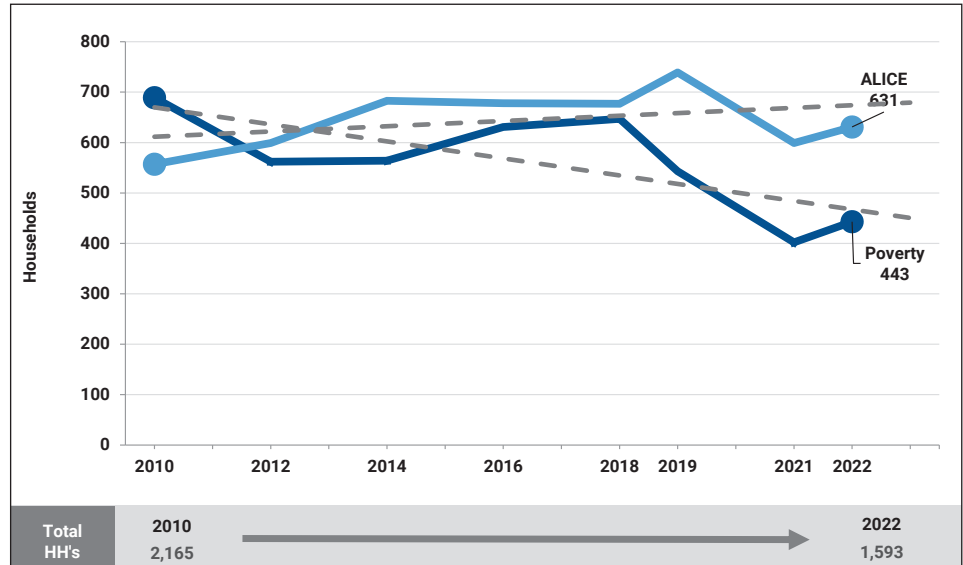

Population: 4,127 • **Number of Households:** 1,593
Median Household Income: \$35,653 (state average: \$55,416)
Labor Force Participation Rate: 40.6% (state average: 59.4%)
ALICE Households: 40% (state average: 32%) • **Households in Poverty:** 28% (state average: 19%)

Financial Hardship Over Time

ALICE is an acronym for **A**sset **L**imited, **I**ncome **C**onstrained, **E**mloyed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the parish (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

Households move below or above the ALICE Threshold as economic factors and circumstances change. This was especially true amid the economic crosscurrents of the COVID-19 pandemic, with higher wages, inflation, and additional pandemic assistance. By 2022, 1,074 households (67%) were below the ALICE Threshold in Tensas Parish.

Households by Income, Tensas Parish, 2010–2022

The Cost of Basics Outpaces Wages

The Household Survival Budget reflects the minimum cost to live and work in the current economy and includes housing, child care, food, transportation, health care, technology, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the parish level and by household composition, as costs can vary greatly depending on location and household needs.

In 2022, household costs in Tensas Parish were well above the Federal Poverty Level of \$13,590 for a single adult and \$27,750 for a family of four.

To see costs for different household compositions in Tensas Parish, visit UnitedForALICE.org/Household-Budgets/Louisiana

The Cost of Basics Outpaces Wages

The Household Survival Budget reflects the minimum cost to live and work in the current economy and includes housing, child care, food, transportation, health care, technology, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the parish level and by household composition, as costs can vary greatly depending on location and household needs.

In 2022, household costs in Webster Parish were well above the Federal Poverty Level of \$13,590 for a single adult and \$27,750 for a family of four.

To see costs for different household compositions in Webster Parish, visit UnitedForALICE.org/Household-Budgets/Louisiana

Household Survival Budget, Webster Parish, 2022

Financial Hardship is Not Evenly Distributed

Groups with the largest number of households below the ALICE Threshold tend to also be the largest demographic groups. However, when looking at the percentage of each group that is below the ALICE Threshold, some groups are more likely to be ALICE than others.

By addressing the disparities in financial hardship by parish demographics, community members can move toward more equitable solutions.

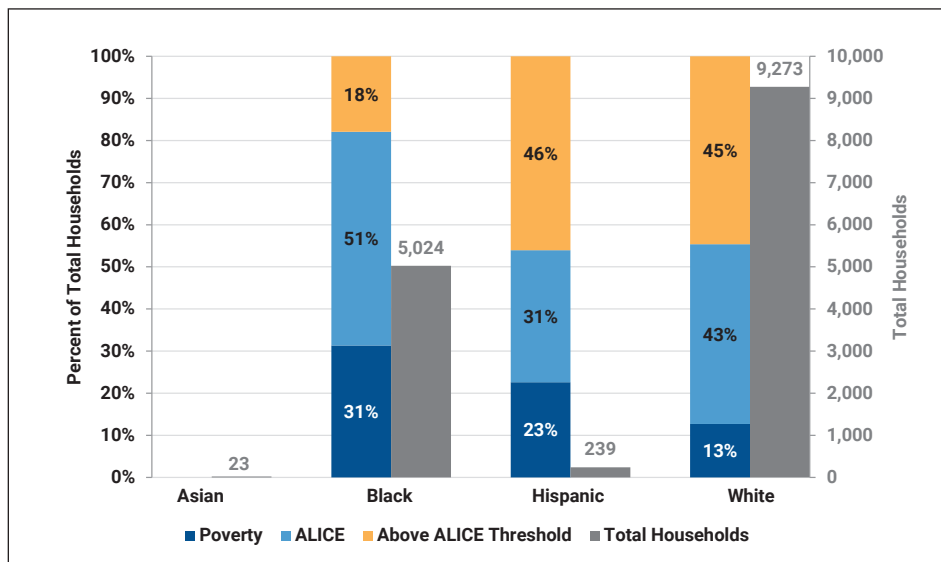

Visit UnitedForALICE.org/Louisiana to view more national, state, and parish data.

Household Financial Status by Household Type, Webster Parish, 2022

ALICE IN WEST BATON ROUGE PARISH

2022 Point-in-Time Data

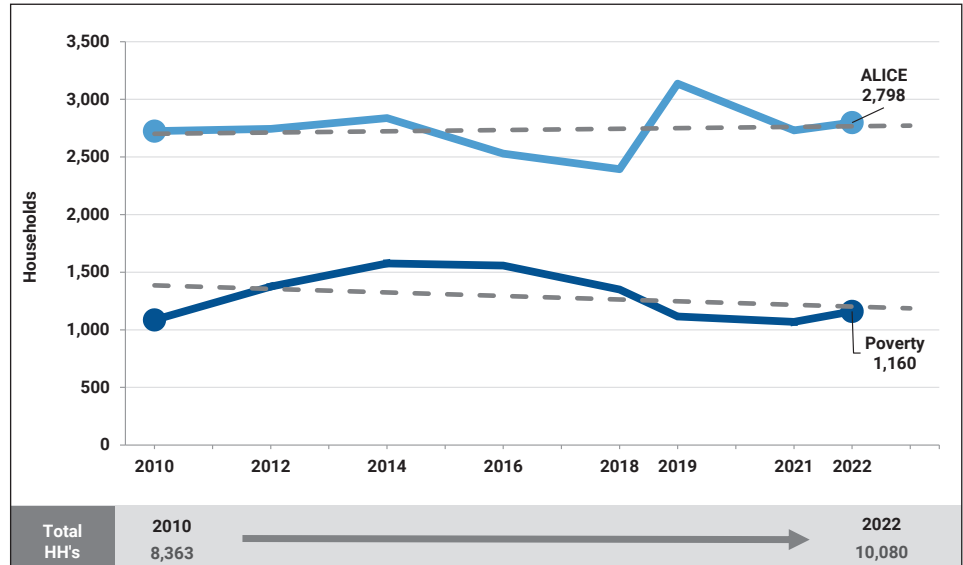

Population: 27,377 • **Number of Households:** 10,080
Median Household Income: \$80,510 (state average: \$55,416)
Labor Force Participation Rate: 63% (state average: 59.4%)
ALICE Households: 28% (state average: 32%) • **Households in Poverty:** 12% (state average: 19%)

Financial Hardship Over Time

ALICE is an acronym for **A**sset **L**imited, **I**ncome **C**onstrained, **E**mloyed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the parish (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

Households move below or above the ALICE Threshold as economic factors and circumstances change. This was especially true amid the economic crosscurrents of the COVID-19 pandemic, with higher wages, inflation, and additional pandemic assistance. By 2022, 3,958 households (39%) were below the ALICE Threshold in West Baton Rouge Parish.
